## *New Hartford... a town for all seasons!*

### Picture a beautiful river

flowing through low-lying mountains that offer sweeping views for miles around.

### Pause

long enough to hear the sounds of life in the country... the call of a hawk, the song of a bird, the echo of a woodpecker on a hollow tree.

### Watch

the fluid river wind its way through town, catch a glimpse of fly fishermen casting their lines, see the colorful kayaks and canoes dotting the water's surface, hear the sounds of laughter from happy tubers as they traverse the river rapids. Watch in wonder and amazement as a bald eagle flies overhead.

### As the seasons change,

the fall foliage paints the hillsides in brilliant shades of reds and gold. The grapes of summer have been harvested and local wine is being made. Bicycles and hikers trek throughout the numerous trails. As winter arrives, the lively sounds of summer and autumn fade. The first snowfall brings with it skiers, skaters and snow boarders. Soon enough, holiday lights are going up and folks are visiting the local Christmas tree farms to find just the right tree.

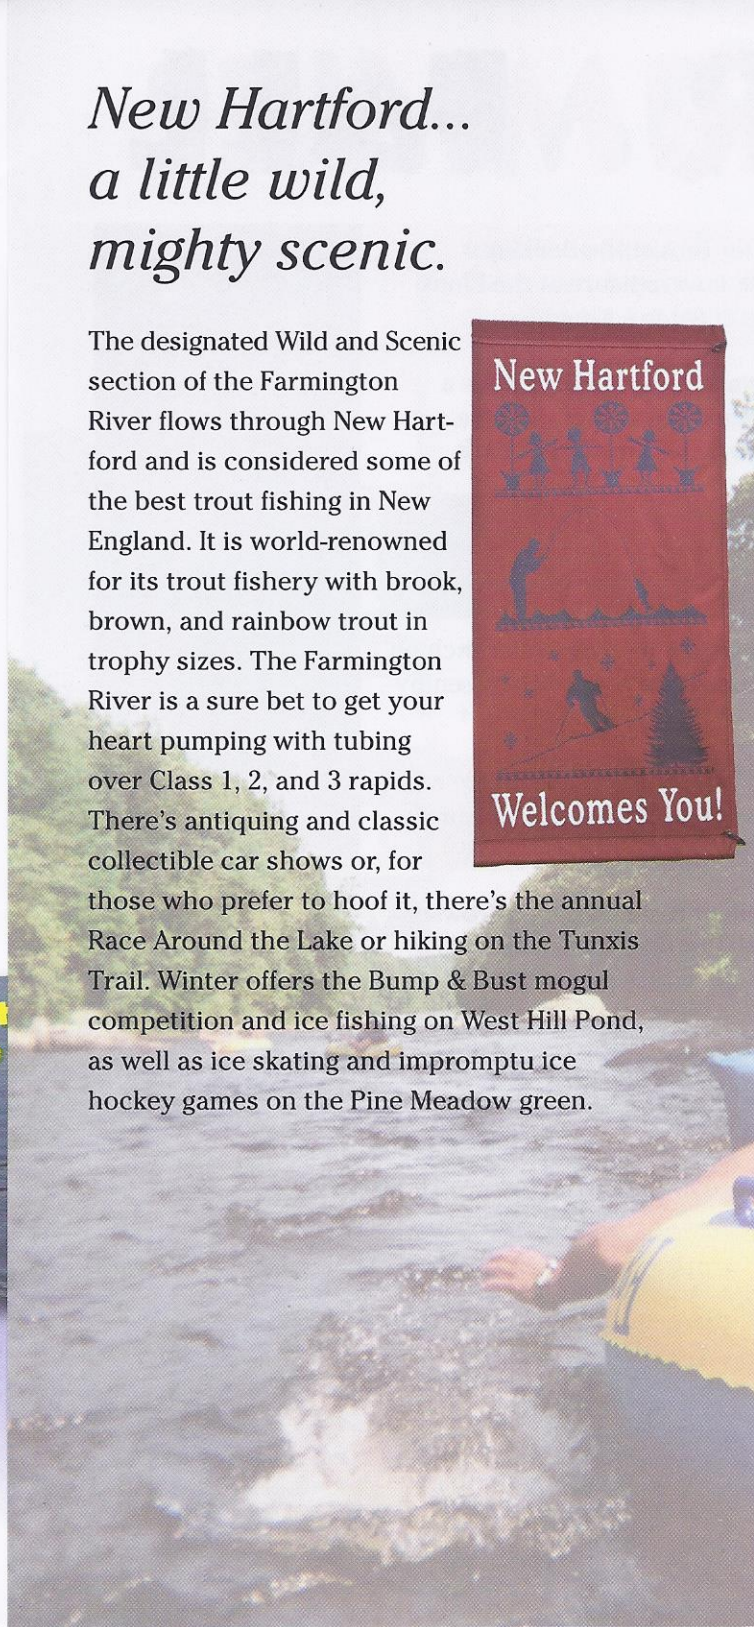

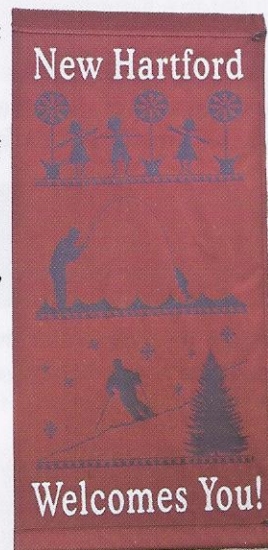

*It sounds like a picture-perfect postcard, doesn't it?*

**WELCOME TO  
NEW HARTFORD!**

## *New Hartford... a little wild, mighty scenic.*

The designated Wild and Scenic section of the Farmington River flows through New Hartford and is considered some of the best trout fishing in New England. It is world-renowned for its trout fishery with brook, brown, and rainbow trout in trophy sizes. The Farmington River is a sure bet to get your heart pumping with tubing over Class 1, 2, and 3 rapids. There's antiquing and classic collectible car shows or, for

those who prefer to hoof it, there's the annual Race Around the Lake or hiking on the Tunxis Trail. Winter offers the Bump & Bust mogul competition and ice fishing on West Hill Pond, as well as ice skating and impromptu ice hockey games on the Pine Meadow green.
