H. New Business

1. COVID-related safety measures survey results – Mr. Sousa stated that one of the grants for the school involving stakeholders is to continuously maintain all the safety measures to help keep students and staff safe. 232 parental responses to the survey which was a very positive number.

One Board member noted that it would be helpful that Mr. Sousa notify the Board each time a survey goes out so they can be aware of any questions or comments that may come their way. Mr. Sousa agreed that he will add the Board to the distribution list. Some Board members asked questions about the historical data about the grant funding name and survey requirements and Mr. Sousa will research and get more information and update the Board.

2. Proposal of 2023-24 school year calendar – The Chair explained the new process for implementing the BOE meeting and school calendars. The BOE meetings should be in alignment with the school calendar and be as one whole calendar for dates of vacations, buses, and professional development days all in one place. Region #7's calendar is also in alignment.

A motion was made by Mr. Klepps and seconded by Ms. Tindall to approve the proposed model for a new combined school calendar with all the BOE meeting dates.

I. Old Business

Curriculum Subcommittee – Mr. Sousa updated the Board. His recommendation is to have the subcommittee comprised of the

Superintendent, Curriculum Specialist, one or two parents, administrators and one BOE member. A board member raised the question to Mr. Sousa of just how involved does a BOE get involved with curriculum from past experiences? Mr. Sousa emphasized the importance of this subcommittee and how the committee members will become educated as well and be able to speak informatively of the great work taking place in our schools.

A motion was made by Ms. Tindall and seconded by Ms. Miller to approve the Curriculum Subcommittee.

Tindall/Miller – The Motion Passed Unanimously

J. Reports

1. School Safety Subcommittee – Mr. Klepps gave a brief update on proposals and considerations to increase security within the NH school system. Three action items were:

- a. School security consultant. An architectural firm such as The Slam Collaborative will visit and provide their assessment and suggestions about the three schools and what can be done.
- b. A community survey and how the town community feels about the current school security and potential of hiring armed guards.
- c. The cost associated re:armed guards and best use of funds or grants.

Mr. Sousa pointed out the fact that the FOIA meeting with Mr. Tom Hennick, provided the rationale for agenda minutes and postings not being posted because it's under the exemption clause for the safety of our students. He is also getting pricing for armed guards and other information for consideration before proceeding. Also noted was the State of CT is expected to release a grant to provide additional funding to offset costs for school security and Mr. Sousa is waiting for the update on that.
