Advisory Commission on Capital Expenditures
Meeting Minutes
Tuesday, February 11, 2020
Sessions Conference Room – Town Hall
6:00PM

The meeting was called to order at 6:05 pm to discuss the following agenda item.

Item 1. Committee will review, discuss and take possible action regarding the 2020/2021 Capital Plan which includes Town of New Hartford and the New Hartford Board of Education capital needs.

All members were present including: First Selectman Dan Jerram, Tom Buzzi (Board of Education Representative), Dan LaPlante (Planning & Zoning Representative), Kerry Guilfoyle (Board of Finance Representative). Superintendent Brian Murphy also attended.

First Selectman Jerram reminded the Commission that there were no specific rules regarding how we review the proposals, we could decide as a group. The Commission decided to start with the Board of Education and then would proceed to the Town proposal.

Tom Buzzi distributed copies of the updated proposal and then gave a preview of the seven (7) items (see attachment) included within year 1 of the Board of Education proposal that totaled $146,500:

- Technology (Chrome Books),
- Playground Equipment,
- Sidewalk Removal and Replacement,
- Painting (classrooms at Bakerville),
- Security Upgrades (Panic Button System),
- Tile (Floor Tile @ Antolini),
- Fencing @ Antolini.

A question and answer session followed with individual members for clarification. It was noted that the Chrome Books and sidewalk projects were continuations of projects from last year. With regard to technology, it was noted for clarification that last year the Chrome Books were for 5th grade students, but the ones included in this year’s plan were for 4th graders. Questions pertaining to the Antolini kitchen and the islands within the parking area at Bakerville School were discussed as well as items included within the later years of the five (5) year plan.

A motion was then made by Buzzi, 2nd by Guilfoyle to accept the Capital Plan as presented by the Board of Education. There was no further discussion. All members voted in favor of the motion (unanimous).

The group then turned their focus to the town capital needs. Jerram distributed a copies of the town’s suggested Capital Plan that totaled $420,000. Jerram reviewed “Year 1” of the plan that included the following initiatives (see attached):
• Large Plow Truck,
• Technology (Town Hall maintenance and upkeep),
• Town Hall Equipment (car charging station),
• Town Hall Equipment (Equipment upgrades and furniture replacement),
• Recreation Upgrades (general upgrades to buildings),
• Garage equipment (roadside mower upgrades),
• Downtown Improvements (sidewalks/lighting etc.),
• Brodie Septic.

The Commission discussed the items at length. Most of the items are recurring items. Two issues were new: the car charging station and the septic system at Brodie Park. The car charging station was an attempt to install a charger for electric vehicles in the Town Hall parking. Buzzi commented that it should be placed within a visible location to maximize impact for businesses. Jerram indicated that it was a good idea and mentioned that the Selectmen were interested in a unit that people had to pay for the electricity they used (other towns that installed the units used units that provided the power for free).

The Brodie septic issue was discussed. Jerram indicated that several of the smaller Adirondack style buildings at the park had bathrooms (roughly six bathrooms in different buildings). An investigation has revealed that these bathrooms had questionable cesspools (individual to each building) that were in various states of condition that all need significant upgrades to conform to health regulations. The Selectmen indicated that they wanted to move forward with a proposal to close all of the existing bathrooms in favor of a new bathroom building. The funds included would begin the process of the transition.

A broader discussion was held on the viability of these older Adirondack style buildings. Jerram commented that while he liked the style of the buildings that added an “old style character” to the park, the advanced age, general low construction quality and condition of these buildings brought into question how much money the town would want to invest to maintain them in the coming years.

A motion was made by Buzzi, 2nd by Jerram to accept the Capital Plan as presented by the Town of New Hartford. There was no further discussion. All members voted in favor of the motion (unanimous).

Jerram indicated that the items no land acquisitions (purchases) planned for this Fiscal Year.

As there was no other business to attend to, a motion made by Buzzi, 2nd by Guilfoyle, to adjourn at 6:45 am. The motion was passed unanimously.

Respectfully Submitted,

Dan Jerram, First Selectman
Capital Project List 2020-2021 - Proposed - Year 1

1. Large Plow Truck  200,000.00  Replace Older Plow Truck.
2. Technology  10,000.00  Recurring-used every year.
3. Town Hall Equip.  10,000.00  Electric Charging Station(s) @ Town Hall
4. Town Hall Equip.  25,000.00  Equipment Upgrades and Furniture Replacement
